WNRK
1260 AM

January 15, 1988

Mr. Bill Burrows
709 Division Street
Gloucester, NJ 08030-2337

Dear Bill:

Please accept this letter as verification of reception of WNRK, 1260 khz, on November 27, 1987 from 1:54 until 2:03 pm. The information contained in your report matches with what was broadcast during the period the signal was monitored.

WNRK is a sunrise to sunset station, operating with 1000 watts into a 3 tower directional system with the main portion of the signal beamed north/ northwest. On February 1st, WNRK will start night operation, reducing power to 42 watts from sunset until midnight sign-off, you may want to try for us after 2/1.

Thank you for taking time to write us and let us know you heard our signal. WNRK is always glad to hear from its listeners both near & far!

Best of DX,

Dave Schmidt
Chief Engineer
